It's Time to *Love* Resource Lists

Mike Hommel | Senior Account Manager

Jessie Ransom | Solutions Architect

Mary-Lynn Bragg | Head of Campus Engagement

ExLibris
a ProQuest Company

Course resource lists are important >>

Enable **LIBRARIANS** to support teaching & learning needs

Provide **STUDENTS** access to scholarly materials and library collections

Facilitate **INSTRUCTORS** knowledge sharing and support pedagogy

So why don't we love them?

- Labor intensive, manual process
- Limited visibly to needs and usage of collections
- Copyright breach concerns

- Costly materials, often even not used
- Old fashioned format
- Inconsistent across courses

- Tedious process
- Limited media types
- No visibility to learning effectiveness

ExLibris

Learning Affordability

The rising costs of higher education

■ Textbooks ■ Tuition and fees ■ Housing

100% cost increase

ATLAS | Data: Bureau of Labor Statistics

Share

$1200
Average spent per year on textbooks by students

812%
Textbook cost increase since 1978

65%
of students said that they had decided against buying a textbook because it was too expensive

94%
Who had foregone purchasing a textbook were concerned doing so would hurt their grade in a course

![ExLibris Leganto]

Save money for students and schools

Maximize the use of library collections

Increase library efficiency & compliance

**Improve the teaching & learning experience**

Enhance student success

ExLibris

Strengthen Library Involvement in Teaching & Learning Activities

- Collaborate with the instructors to set up, create, and update lists

- Gain better visibility into course resource needs

- Leverage content expertise to recommend pertinent resources

- Monitor materials added to reading lists and initiate relevant actions (e.g. activation, acquisition, subscription, digitization, short loan)

- Easily scale up to support more courses

Leganto Customer Stories

Arizona State University

"We're hoping to save students money by identifying free access to course readings" using Leganto

Tufts University

We plan to use Leganto to "make materials accessible more quickly and also help us to integrate e-articles into reserves"

Harvard University

"Looking forward to [Leganto's] faculty empowerment features... and integration of scanning/copyright clearance"

UC Davis University of California

"Leganto offers the ability to highlight the library's rich resources in all formats. "

Memorial University

"The major benefit of using Leganto is to simplify and streamline access to course material for students"

University of Denver

"We hope to see a more streamlined process than our current system. This includes the desire for faculty to be able to submit reading lists themselves."

Washington State University

"We are looking forward to having one workflow for all of our course reserves"

The University of Oklahoma

Leganto allows the library's vast resources to be "embedded in courses management systems and library discovery tool... an instant win."
