

Student Success Committee Update

COLD Zoom Meeting

September 30, 2020

Frank Wojcik, Chair

Student Success Study Data:

- Lili Luo has completed data cleanup for 12 participating libraries and has processed the data for most of those.
- Lili continues to work with some libraries to finalize their data submissions. The main issues include
 - missing or incomplete data;
 - data not formatted as specified in the sample data output file.
- All data submissions **must be finalized by October 15** so Lili has sufficient time to analyze data for individual institutions and the combined CSU-wide data
- Individual deans were contacted and asked to have their libraries complete data submissions in advance of October 15.

Remaining timeline:

October 15, 2020: Final deadline for data submissions in prescribed format

October-November, 2020: Continuing data analysis and conclusions

December 2020: Final report to COLD

January 2021: Submission to CSU ScholarWorks
