Schol Comm Committee reset was successful, thank you all, and we appreciate any and all interested in joining to add to this amazing group. The first meeting was held August 28, 2024, and it largely was introduction to members, and the Schol Comm posted scope, vision, and objectives. A logic frame activity explored what the members top priority committee goal was, to **ensure development of a library workforce with the skills to effectively and authoritatively engage in current and emerging scholarly communication conversations.**

We held our second meeting 9/11/24 which discussed the [NSF grant CSUs Explore RDM Infrastructure](#), interest in surveying CSU Libraries about Scholarly Communications roles, as well as, we discussed a CSU Open Access Policy and Open Access Week, Oct. 21-27.
