VE Releases & Recs

The following are recommendations for CSU campuses on which Primo VE features to implement. Releases have been tested in sandbox and production environments by the ULMS Discovery VE Testers Team (VETT).

Additionally, here are some key links for your reference:

RECOMMENDED

Provide Warning Message when Guests Add to Favorites

Users who have not logged in are warned when adding records to Favorites that records are temporary and will last during the session only.

- View Configuration Configuration > Discovery > Display Configuration > Configure Views > Display Favorites Warning Message for Guests
- Labels to change
 - aria labels `nui.aria.favorites.CloseMessage` – Close message
 - Favorites Labels `nui.favorites.guestSaveMessage` – customize message
 - `nui.favorites.guestSaveMessageDismiss` – Dismiss

OPTIONAL

Share Export Action

Adds Share button that allows users to share records via social media to quick links Brief Display, Full Display, and My Favorites.

NEEDS FURTHER DISCUSSION/FEEDBACK

Give Us Feedback Improvements

Improves the out-of-the-box "Give Us Feedback" feature. Requires further consortial discussion whether to adopt.

Allow Configuration of CDI Linking Preferences

Set preferred order of links to electronic full text in CDI (Link in Record and Quicklinks) if more than one link is available. Waiting for ERM feedback.

Provide Direct Linking from Full Records

Users can now go directly to full text from the full record. Waiting for ERM feedback.
