

Primo Central Index Collection - Alternative Coverage Analysis Modern Language Association (MLA) supplement

As of December 2018, the following list provides additional information about the Modern Language Association (MLA) International Bibliography database.

The list indicates those Primo Central collections that the customer should activate in order to achieve alternative coverage for the MLA database. Collections marked with (*) are available for activation to users from subscribing institutions only.

Note that coverage is measured at the title level (title, ISBN, ISSN).

The total coverage of MLA content stands on 96.7%.
