

We had no idea!

Switching from SFX to the Alma/Primo link resolver

Sunshine Carter, University of Minnesota Duluth

Janet Arth, University of Minnesota Twin Cities

Disclaimer!!!

We go live in December

SFX (Find It)

University of Minnesota

- Four separate instances, one for each campus
 - Crookston
 - Duluth
 - Morris
 - Twin Cities
- Weekly updates are applied centrally for all instances
- Each campus maintains its own server side configuration, including the SFX Menu and A-Z E-Journals templates and css

SFX (Find It) @ University of Minnesota

- Each campus has access to SFX Admin for their site
 - Separate knowledge bases; doing activations, etc.
 - Separate menu configuration including menu design, display logic and target precedence
 - Each campus maintains its own SFX Menu and A-Z E-Journals list via templates and css
- Nothing is shared, if access to a resource is for all four campuses the activation must be done for each campus

Knowledgebase, etc.

UNIVERSITY OF MINNESOTA

Driven to DiscoverSM

The University of Minnesota is an equal opportunity educator and employer.

How to find a collection or package (formerly target)

Search for Electronic Collections: Institution Zone

The screenshot displays the ExLibris Alma interface. At the top, the logo for ExLibris Alma is visible, along with navigation links for 'Tasks' and 'Analytics', and a status indicator 'Currently at: UM DULUTH L'. Below the header, the 'Repository Search' section is active. The search criteria are set to 'Find Electronic Collection where Electronic collection Name contains academic search premier'. The search is filtered by 'Institution' and 'Community'. The results are sorted by 'Rank'. The first result is 'Academic Search Premier', an aggregator package with full text services, created on 2011-04-13. The second result is 'Academic search premier', a partial full text database, created on 2013-08-12. The third result is 'EBSCOhost Academic Search Premier', another aggregator package with full text services.

Activating Resources in Alma

The Electronic Resources Activation Tasklist

The screenshot shows the Alma administrator interface. At the top, there is a navigation bar with the Alma logo, a search bar, and tabs for 'Tasks', 'Analytics', and 'Currently at: None'. Below the navigation bar, a welcome message reads 'Welcome Administrator, Alma'. The main content area is divided into two columns. The left column contains a 'Tasks' dropdown menu with a list of tasks, including 'Electronic resources - activation - assigned to you (5)' and 'Electronic resources - activation - unassigned (8)'. The right column contains a 'Notifications' dropdown menu with a list of notifications, including 'Electronic resources - activation - unassigned (8)' and 'Invoices - approval - assigned to you (3)'. The 'Tasks' and 'Notifications' labels are highlighted in yellow.

Community Zone Updates Task List (from EL documentation)

- The Community Zone Updates Task List page in Alma displays changes that were made to your Institutional Zone (IZ) during updates from the Community Zone (CZ).
 - specific to your institution
 - may include modifications to bibliographic records as well as changes to holdings, availability, security requirements, and parser parameters
 - synchronized on Sundays at midnight in your time zone.
- Additional updates such as enrichments and authorities may occur during the week in order to prevent overload to your system.

Campus Specific getFullText

The getFullText is not currently sensitive to one's campus.

The original approach was to require users to log in to see anything other than freely available resources, why this won't work:

- University land grant mission (various scenarios)
- ILL staff (from somewhere else) would like to see the terms of use on an e-resource in order to submit an expedited request
- 24 x 7 reference services result in non-UofM libraries helping our users find resources

Will know more after the November update.

SFX Target Ordering

Targets to be placed last

Chosen targets order

The screenshot shows a list of ten SFX target identifiers in a software interface. The list is contained within a rectangular box with a vertical scrollbar on the right side. The targets are listed in the following order from top to bottom:

- EBSCOHOST_ACADEMIC_SEARCH_PREMIER
- EBSCOHOST_APPLIED_SCIENCE_TECHNOLOGY_FULL_TEXT_WILSON
- EBSCOHOST_ART_FULL_TEXT_WILSON
- EBSCOHOST_ALT_HEALTHWATCH
- EBSCOHOST_ATLA_SERIALS
- EBSCOHOST_BUSINESS_SOURCE_PREMIER
- EBSCOHOST_CINAHL_PLUS_WITH_FULL_TEXT
- EBSCOHOST_COMM_MASS_MEDIA_COMPLETE
- EBSCOHOST_CONSUMER_HEALTH_COMPLETE

On the right side of the list box, there is a vertical scrollbar with a 'Move Up' button (upward arrow) and a 'Move Down' button (downward arrow). To the right of the entire list box, there are two additional buttons: a red upward-pointing triangle and a red downward-pointing triangle.

Can only be done at the “package”/target level, not at the “interface”/vendor level

Alma A-Z Journals List

The screenshot shows the MNCAT University Libraries website. At the top, there is a dark red header with the MNCAT logo and the text "MNCAT UNIVERSITY LIBRARIES - Twin Cities". To the right of the header, it says "Guest" with a star icon. Below the header, there are navigation links: "New Search", "Tags", and "Find E-Journals". A search bar is present with the text "Find e-Journal by Title:" and a search button labeled "Search". Above the search bar, there is a navigation menu with letters from A to Z, and "Others". The search results section shows "8,430 Results" and "Sorted by: Title". Three journal entries are visible, each with a star icon and an "Add to e-Shelf" link. The first entry is "A águia" by Porto Tércio de Miranda. The second entry is "A and D Intelligence" by Newstex L.L.C Guilford. The third entry is "À bâbord." by Québec : s.n. 2003]. Each entry has links for "View It", "Details", "Reviews & Tags", and "Get It".

What requires or easier if there is consensus across the Campuses

- Style sheet for displaying targets
- Menu logic - Not doing this initially
 - The same logic applies to both title and article level request (a high priority item for us)
 - Need to test the behavior with varied campus activations
- Target precedence (to top/to bottom)
- Display text for the UResolver menu
- Tab labels within Primo

Some of the larger unknowns

- How the getDocumentDelivery will work short and long term (2 campuses use 2 ILLiad instances and 2 currently use a webform)
- How menu logic works given the different subscriptions (targets and thresholds)

Questions? Comments?
